

15. (Added) The method as recited in claim 13, wherein the plurality of user selectable answers are presented to the user with corresponding check boxes by which the user may select one of the plurality of user selectable answers.

16. (Added) A method of providing a user information regarding non-qualified benefits plans, comprising:

- presenting to the user a series of questions concerning non-qualified benefits plans;
- presenting to the user a plurality of user selectable answers for each question; and
- presenting to the user attributes of a non-qualified benefits plan in response to the user selecting one of the plurality of user selectable answers for each question.

17. (Added) A computer-readable media having instructions for providing a user information regarding non-qualified benefits plans, the instructions performing steps comprising:

- presenting to the user a question concerning non-qualified benefits plans;
- presenting to the user a plurality of user selectable answers for the question; and
- presenting to the user attributes of a non-qualified benefits plan in response to the user selecting one of the plurality of user selectable answers.

18. (Added) The computer-readable media as recited in claim 17, wherein the question and the plurality of user selectable answers are adapted to be presented to a user using a Web browser.

19. (Added) The computer-readable media as recited in claim 17, wherein the plurality of user selectable answers are presented to the user with corresponding check boxes by which the user may select one of the plurality of user selectable answers.

20. (Added) A computer-readable media having instructions for providing a user information regarding non-qualified benefits plans, the instructions performing steps comprising:

- presenting to the user a series of questions concerning non-qualified benefits plans;
- presenting to the user a plurality of user selectable answers for each question; and
- presenting to the user attributes of a non-qualified benefits plan in response to the user selecting one of the plurality of user selectable answers for each question.

21. (Added) A method of suggesting a benefit plan from a plurality of benefit plans, comprising:

- presenting to a user a series of questions and a selection of answers for each question;
- receiving answer inputs from the user; and
- presenting to the user as a function of the answer inputs a suggestion as to which of the plurality of benefit plans is appropriate for the user.

22. (Added) The method as recited in claim 21, wherein the suggestion is in the form of a graphical representation of a score assigned to each of the plurality of benefit plans.

23. (Added) The method as recited in claim 22, wherein the score is determined as a function of weights assigned to the questions and answers.

24. (Added) A method of suggesting a benefit plan from a plurality of benefit plans, comprising:

presenting to a user a series of questions and a selection of answers for each question;
receiving answer inputs from the user;
differentiating the plurality of benefit plans as a function of the answer inputs; and
presenting information to the user indicative of the differentiation.

25. (Added) The method as recited in claim 24, further comprising graphically presenting the information indicative of the differentiation.

26. (Added) The method as recited in claim 24, wherein the information is a score assigned to each of the plurality of benefit plans as a function of the answer inputs.

Bl/Cond.
27. (Added) A computer-readable media having instructions for use in suggesting a benefit plan from a plurality of benefit plans, the instructions performing steps comprising:
presenting to a user a series of questions and a selection of answers for each question;
receiving answer inputs from the user; and
presenting to the user as a function of the answer inputs a suggestion as to which of the plurality of benefit plans is appropriate for the user.

28. (Added) A computer-readable media having instructions for use in suggesting a benefit plan from a plurality of benefit plans, the instruction performing steps comprising:
